

THE SAFETY OF THE BLOOD SUPPLY: 1985 VS. TODAY

1985:

In some U.S. cities, an estimated 1 in 90 blood transfusions was infected with HIV.¹

The U.S. FDA licensed the first HIV test, pioneered by Abbott.

1. Busch MP, Young MJ, Samson SM, Mosley JW, et al. *Transfusion*. 1991; 31: 4-11.

TODAY:

Millions of patients are safely given blood transfusions every year.

GET TESTED, KNOW YOUR HIV STATUS. TO LEARN MORE, VISIT ABBOTT.COM.
